Aims

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Briscoe Lane Academy, as part of the Wise Owl Trust, prides itself on being an inclusive school whose values reflect our commitment to high expectations for all. We aim to treat all pupils fairly and with respect, and this involves providing access and opportunities for all pupils without discrimination of any kind. Everyone in our school is important and included. Children are provided with high quality learning opportunities so that each child attains and achieves all that they are able to. We promote an ethos of care and trust where every member of our school community feels that they truly belong and are valued.

We are committed to providing an accessible environment which values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. The school will remove or minimise any potential barriers to learning allowing all children to achieve and participate fully in school life. Briscoe Lane Academy will challenge negative attitudes about disability and accessibility and developing a culture of awareness, tolerance and inclusion.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

Legislation & Guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments, such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a pupil with disabilities faces in comparison with a pupil without disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.

Equality Objectives

The school's current Equality Objectives are:

1. To promote spiritual, moral, social and cultural development through the teaching of a range of curriculum subjects, with particular reference to issues of equality and diversity
2. To promote a smooth and positive admission and transition into the school for minority ethnic pupils who are international new arrivals and/or at the early stages of language acquisition.
3. Early identification of pupils with SEND to remove barriers to learning.
4. Ensure all pupils have a broad understanding of the opportunities available beyond those experienced within the family/community context.

How the school has developed its objectives

The school's current equality objectives represent the school's priorities and are the outcome of a careful review and analysis of data and other information. They also take into account national and local priorities and issues. In particular:

- The objectives are based on consultation conducted with staff, children, governors and parents and carers and evidence collected and published;
- The objectives are specific and measurable – they meet the school's needs and are achievable;
- The objectives are integrated into the school improvement plan;
- The school will publish its objectives on the school's website;
- The school will report annually to the Local School Committee on progress towards achieving the objectives;
- Evidence will be published on the school website of the steps being taken and the progress towards meeting these objectives;
- Evidence of steps taken and progress made towards meeting past objectives will also be published;
- The objectives will be reviewed annually and will be updated at least every four years.
